

AGM

February 18, 2022

Shelli Little
President
Shelli Industries LLC
4500 E Speedway Blvd.
Tucson, AZ, 85712

Shelli Little,

Congratulations! It is with great pleasure that I, Howard N. Stewart, President and CEO of AGM Container Controls Inc., write to inform you that Shelli Industries LLC is being recognized as an AGM "Supplier of the Year" for the year 2021.

Now in its sixth year, AGM's Supplier of the Year Award Program annually recognizes an elite corps of our suppliers which have demonstrated a "commitment to excellence" throughout the previous year.

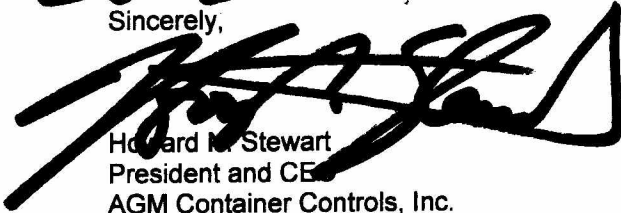

In this regard, Shannon Galanek, AGM's Purchasing Manager, and I take the time to annually review all of our suppliers in order to identify "the best of the best". We do so by carrying out a comprehensive performance review of all of AGM's active suppliers (as well as vendors) that meet the following four-point criteria. Such suppliers must have: 1) fulfilled AGM's "minimum number of orders" expectation during the previous year; 2) met AGM's monetary threshold regarding the overall value of such orders; 3) achieved a satisfactory quality rating on the components that they shipped/delivered to us; and 4) achieved a satisfactory on-time delivery rating in regard to the materials that they shipped/delivered to us.

As such, for the year 2021, Shelli Industries LLC supplied AGM with a total of 102 orders, amounting to more than \$94,000 worth of materials. Furthermore, your company maintained a 100-percent component quality rating, as well as a 100-percent on-time delivery rating. Therefore, it is my pleasure to inform you that such achievements qualify your company to be a six-time recipient of an AGM Supplier of the Year Award.

Incidentally, viewed along these metrics, Shelli Industries LLC was one of only six companies, out of an overall 273 active AGM suppliers and vendors, which qualified for AGM's 2021 Supplier of the Year Award Program.

*Thanks for having contributed to AGM's
2022 success. Awesome job, Shelli!*

Sincerely,

Howard N. Stewart
President and CEO
AGM Container Controls, Inc.
